ALABAMA MINERS OUT

Operators Alleged to Have Refused to Collect For Union.

THREE THOUSAND MEN QUIT WORK.

Other Districts May Be Involved Where Some Company Is Operating Mines—The Cause of the Strike.

Birmingham, Ala., Oct. 2.—Twenty-five hundred miners in the employ of the Tennessee Coal, Iron and Railroad company have suspended work. In obedience to the order of the executive board of the United Mine Workers of America, district of Alabama, which on account of the refusal of the operators to collect for the union one dollar per week assessment, made on all union miners for the benefit of the anthracite strikers in Pennsylvania. It is thought probable that the Blue Creek and Blocton mines of the Tennessee company also will be involved if an adjustment is not soon reached. About two weeks ago the Tennessee company declined to withhold the assessment money from certain miners at West Pratt, who objected to its payment, and 500 men at that mine were ordered out. This suspension makes the total number now out 3,000. The miners of the Sloss-Chief-Steel and Iron company are holding a mass meeting at Cardiff to determine what course they will pursue.

Conference Committee Meets.

Detroit, Oct. 2.—The special committee which has in charge the postponed national conference on the country's coal supply, to be held here Oct. 9, met with Mayor Maybury, and decided to send the following telegram to President Roosevelt: "Convention called here for Oct. 9, to consider coal supply. Responses from all over the country indicate that convention will be large and representative in character. We all hope your good offices in conference may settle difficulties and render all other efforts unnecessary. If we could have earliest advice of result of conference, it would control our future action." After appointing a committee of 100 to take in charge all the details of the proposed conference and deciding to hold it in Masonic hall the committee adjourned.

Memorial Fund Endless Chain

Cleveland, Oct. 2.—Colonel Myron T. Herrick, treasurer of the McKinley Memorial association, is receiving many hundreds of letters daily containing small contributions to the memorial fund. Some time since unknown persons started a 10-cent endless chain scheme in connection with the monument fund. Later a 5-cent and then a 2-cent endless chain letter was started. Up to date fully 50,000 of these letters have been received by Judge Day, president of the association at Canton, and forwarded to the treasurer's office in this city. The letters not only come from all parts of the United States, but many are from European countries.

Special Train For Troops.

Mount Carmel, Pa., Oct. 2.—Owing to a crowd of unknown persons hurrying rocks at the deputies at Righter's colliery, a company of soldiers have been posted at that mine. A company was taken to Shamokin on a special train to prevent pickets from stopping non-unionists from going to work at the Reading and other collieries. Two special trains were placed at the Reading and Northern Central railroad stations so that troops can be rushed to any colliery in Northumberland county in case mobs try to raid the mines.

Breaking Reservoir Causes Flood

Camden, N. J., Oct. 2.—The city reservoir near the Delaware river breaking caused about 8,000,000 gallons of water to escape, flooding the cellars of many houses and doing other damage. The reservoir is a large one. A watchman whose duty it is to open a valve when the water reaches a certain height neglected to do so and the water flowed over the embankment, washing away the earth to such an extent that the break followed. It will cost the city \$25,000 to repair the damage.

Ravages of Cholera.

Cairo, Egypt, Oct. 2.—Two hundred and fifty-four fresh cases of cholera are reported in Egypt in one day and 241 deaths from that disease. The totals since the outbreak, July 15, are 36,658 cases and 30,988 deaths.

Dies From Cancer.

Portsmouth, N. H., Oct. 2.—John E. Rider, recently appointed United States consul at Saltillo, Mexico, is dead from cancer. He was for some years purchasing clerk at the Mare Island navy yard.

PASSED ARBITRATION BILL.

Senate and House Take Up Amendments to Code.

Columbus, O., Oct. 2.—In the house the Guerin amendment to the code providing for compulsory arbitration between street railways and their employees was adopted by a vote of 66 to 22. It is so amended that it will include all grants made before the curative act was passed.

Senator Gear of Wyandot, arising to a question of personal privilege, explained his favorable vote on the curative act. He said he voted for the curative act to be inserted in the code, but would vote against the code unless a referendum was attached to that section.

Mr. Bracken brought up his amendment providing for an eight-hour workday on streetcar lines, and it was defeated by a vote of 34 to 29.

Sections of the code relating to taxation were discussed. Mr. York moved to make the maximum tax levy of municipal corporations, exclusive of those for state, county, library, hospital, school, sinking fund and interest purposes, 10 mills instead of 15, as provided in the amended code. There was a long debate over this, but the York motion prevailed. On motion of Mr. Fraser of Lucas, levies made by boards of education were taken from under the supervision of the tax commission. An amendment providing that, while the tax commission may decrease any levy, it can not increase it, was adopted.

NEARING ARBITRATION.

Streetcar Employees Present Proposition to Traffic Company's Officer.

New Orleans, Oct. 2.—Beyond the discovery that a large number of wires had been cut in the upper part of the city during the night there are no new developments in the street car strike. There was, however, a feeling that negotiations between the company and the employees would soon lead to some plan of arbitration. The last proposition of the men, that they be given an 8-hour continuous day at 25 cents an hour, these terms to continue in the event that the men prove the violation of the April agreement, was handed to President Pearson. Following it there was a conference between the representatives of the strikers and the railroad officials. It is thought the contending sides are nearing common ground. The public continues to be greatly inconvenienced by the strike. Primitive methods of transportation continue to be employed and several hundred vehicles of all sorts are in use. No attempt to run cars had been made by the company.

Eleven Men Arrested.

Wilkesbarre, Pa., Oct. 2.—Angry mobs gathered in the vicinity of the Sterling and North American washeries at Plymouth. At first the sheriff tried to disperse the crowds, but several of his deputies were in danger of their lives. Coloney Dougherty of the Ninth regiment was then called upon. He sent a company of soldiers to the scene and 11 men were arrested charged with disorderly conduct and refusing to obey the proclamation issued by the sheriff and disperse. The prisoners were brought to this city and given a hearing. They are held in jail for court.

Madame Zola Views Remains.

Paris, Oct. 2.—Madame Zola has been allowed to see the body of her husband. A large crowd assembled in front of the house, saluted her respectively as the widow alighted from a carriage, escorted by two doctors. She was attired in deep mourning and was evidently very weak. Zola's publishers and his intimate friends, Charpentier, Fasquelle and M. Desmoulins, the writer, accompanied her to the mortuary chamber. When her husband's features were uncovered, Mme. Zola's anguish was heartrending. She finally swooned.

Have Arranged For Coal.

New York, Oct. 2.—President Fowler of the New York, Ontario and Western railroad says in regard to the coal situation in New York that by an arrangement among themselves, the coal companies were providing the elevated railroad with sufficient coal to run its trains. The schools and hospitals in this city would also be taken care of and arrangements would be perfected in a few days to supply the poor people in this city with coal in small quantities at low prices.

Republican League Meets.

Chicago, Oct. 2.—The annual convention of the National Republican League is in session here with 400 delegates present, representing the auxiliary leagues of the various states. This number is less than half the attendance which had been expected before the illness of President Roosevelt, whose presence had been assured.

OFFICIALS ENROUTE.

President Mitchell and Coal Operators Going to Washington.

SENATOR QUAY VISITS WHITE HOUSE.

Conference With President Roosevelt May End the Strike—President of Pennsylvania Company May Not Attend.

Washington, Oct. 2.—"It is expected that all the men to whom invitations were sent will be present at the conference. Mr. Baer and Mr. Mitchell have accepted." This was the only statement that could be secured at the White House regarding the conference which will be held on the coal situation. Senator Quay of Pennsylvania was in the office with the president for an hour and it is understood he came here at the request of the president to discuss the strike question. The president and senator were not interrupted and two cabinet officers who called did not see the president while the conference was in progress. Senator Quay after he left the president would not discuss the situation or express an opinion as to the probable effect of the coming conference.

During the day Secretary Root, Attorney General Knox and Secretary Shaw were in conference with the president. Secretary Wilson was at White House a short time, but the three first remained with the president for nearly an hour. It is understood the president discussed the subject of the conference, the cabinet officers making a number of suggestions as to what the president should say to those who will participate in it.

Mitchell on His Way

Wilkesbarre, Pa., Oct. 3.—President Mitchell is getting ready for his trip to Washington. He left here over the Lehigh Valley for Philadelphia. From the latter city he will go direct to the national capital. All interests here are now of the opinion that the conference to be held at the White House will bring about a settlement of the strike.

Engineer Was Gamed.

Williamsport, Pa., Oct. 2.—Five masked men battered in the door of the Montoursville, Pa., Electric company's power house with the supposed intention of overpowering the engineer and looting a safe in the office. Engineer Elen Bly secured a revolver and open fire, killing one robber and wounding two others. During the fight Bly was shot twice in the hip and leg. He will recover. Bly managed to reach the whistle and sounded an alarm. While doing so, the robbers dragged their dead companion outside, stripped his body of all papers and valuables and escaped. The dead man was not identified, and is believed from the general appearances of the body to be a professional thief.

Earthquakes in Mexico.

San Francisco, Oct. 2.—The steamer City of Sydney, which has arrived from Mexican ports, brings news of a disastrous earthquake at Tapachula, near the southern boundary of Mexico. Particulars of the event, which occurred on Sept. 24, are not available, the only account having been learned at Mazatlan on the following day, where a telegram has been received containing nothing more than the statement that an earthquake has demolished several buildings and inflicted other damage in the community. Tapachula was seriously damaged by the big earthquakes of last spring, at the time Quezaltenango and many other towns of Guatemala were almost ruined.

To Race For America's Cup.

New York, Oct. 2.—The America's defender Columbia, owned by former Commodore J. Pierpont Morgan, New York Yacht club, will be placed in commission early in the spring to become one of the trial boats for the new yacht that will be built by the Herreshoffs if the races for the trophy takes place, as announced next season. Captain Miller, skipper of the yawl Navahoe, probably will sail the old favorite.

Wrangle Over Naval Courtesies

Buenos Ayres, Oct. 2.—Difficulty has arisen between the commander of the United States battleship Iowa, Captain Thomas Perry and Commodore Batillari, commander of the Argentine squadron, stationed at Puerto Belgrano. The Iowa has saluted the Argentine flag, but not the commodore's flag, Captain Perry declaring that as he is of a higher rank than the Argentine commander, the latter should salute him first. The matter has not yet been settled.

WITHOUT UNITED STATES.

Argentine Republic Cares Nothing For American Protectorate.

Buenos Ayres, Oct. 2.—In commenting upon American policy toward South American countries, La Prensa, of Buenos Ayres, Argentina, says: "Brazil has selected a favorable moment to ask Chilli's intervention in the Acre question after having made the same proposal to Argentina. Chilli holds Bolivia by the head and Brazil holds her by the feet, the former retaining Antofagasta and the latter disputing the possession of Acre. Brazilians and Chilians do not contemplate South American action against American imperialism, but Brazil has endeavored to awaken the interest of South America with the object of magnifying the Acre question." Commenting upon the impression its last article made upon the French press, it says: "These papers suppose there is some kind of a dependence of South American nations with regard to the United States. This notion is absolutely false. South America never put itself under a United States protectorate, but has decided to maintain its importance against Europe or America."

Morgan Was Consulted.

New York, Oct. 2.—The railroad presidents who received President Roosevelt's invitation to meet him in Washington and discuss the coal strike situation are to leave the city at once. President Cassett of the Pennsylvania railroad, who received a special invitation from President Roosevelt to attend Friday's conference, was a visitor at J. P. Morgan's office. "I haven't yet decided to accept the president's invitation," said Mr. Cassett, but I expect to make up my mind later." Mr. Morgan and his representatives have talked with some of the leading operators and it is understood certain memoranda have been prepared which will be submitted to the president at the conference.

Claims Panama Title Good.

New York, Oct. 2.—William Nelson Cromwell, general counsel of the new Panama Canal company, who has returned from Paris, says he delivered to Attorney General Knox in Paris every conveyance, decree, concession or other document relating to the properties of the new Panama Canal company from its inception in 1878, showing a complete and perfect chain of title in the new Panama company and its unquestionable power to convey the canal, the plant, concessions and other property to the United States free and clear of all liens or claims of any kind.

Purchasing Steel Abroad.

New York, Oct. 2.—Scarcely of steel in the United States in comparison with the demand and the inability of steel concerns to fill orders for quick delivery are driving more structural buyers abroad. A contracting engineer of Ohio who was unable to get an order for structural steel filled in the time required by his contract went to Germany and placed an order there for \$40,000 to \$50,000 worth of material. Then he went to London and chartered a vessel to take it to America.

Migration of Poles.

St. Petersburg, Oct. 2.—The annual migration of Russian Polish laborers to Prussia is well known and a similar movement on a larger scale within the borders of European Russia has been started. It is calculated that 2,137,000 peasants, insufficiently provided with arable land, leave their homes in the central and northern provinces every year to seek work in the south.

Low Will Await Conference.

New York, Oct. 2.—Mayor Low has sent another telegram to Mayor Maybury of Detroit regarding the proposed conference there on Oct. 9. The mayor decided to take no action at present, awaiting the outcome of the action of the president at the conference with the railroad presidents and President Roosevelt.

Valued Examination.

New Haven, Conn., Oct. 2.—Harry L. Dupuy of Pittsburg, a Yale student charged with manslaughter in causing the death of D. Thorpe Munro, of this city by an automobile collision last June, valued examination in the police court and was held in bonds of \$1,000 for the superior court.

Gathering of Lutherans.

Mansfield, O., Oct. 2.—The business session of the fifty-sixth annual meeting of the Wittenberg synod are being held in St. Luke's Lutheran church, with about 75 delegates in attendance.

Firemen in Session.

Newark, O., Oct. 2.—The joint board meeting of the Brotherhood of Locomotive Firemen of the Baltimore and Ohio system is being held here.

\$50,000 FOR ONE VOTE

Trial of Robert Snyder Brings Out Startling Testimony.

UTHOFF CLAIMS HE MADE NO PROMISE.

Former Member of St. Louis Council Testifies in Bribery Case Growing Out of Traction Company's Bill.

St. Louis, Oct. 2.—When Judge Ryan's court met, the trial of Robert M. Snyder, banker and promoter, on the charge of bribery in connection with the passage of the Central Traction bill, was resumed. Frederick G. Uthoff, who was a member of the city council in April, 1898, was put on the stand by the state. It is expected to prove that money was paid to Uthoff by the defendant to secure his vote for the Central Traction bill. In answer to questions put by Circuit Attorney Folk, Uthoff testified that while a member of the city council in 1898, when the North and South Traction bills were pending, Robert H. Snyder called on him at his residence, having been taken there by Louis Dickman by appointment. Uthoff continued: "After talking socially about half an hour, Snyder said he lived in New York, and that he was a millionaire, and that he was connected with a bank in Kansas City. He was talking about how much money he had. He said he made a part of it in the real estate boom in Kansas City. Then he again spoke of the Central Traction bill. I told him I did not want to talk about the matter. He said we were both Masons and we could discuss it the same as lodge matters. He said I ought to favor him with his bill. I told him I had been approached and offered \$50,000 for my vote. I will get that amount and send it by Dickmann," said Snyder to me. Now, I never said then, nor have I ever said, that I would vote for the measure."

Witness then told of a package brought to his house the following day by Dickmann and his second meeting with Snyder. At that meeting Snyder said: "Uthoff, if you don't vote for that bill I am a ruined man." "I told Snyder," continued the witness answering Mr. Folk, "that he should come to my house and get that package back that I did not want it."

"Did he do as you requested?" "Yes, he came the next day," said the witness, "and opened the package which contained currency, 25 checks of \$1,000 denomination, and the balance in securities and paper. Snyder took the contents and departed."

Uthoff said he next saw Snyder at the Planters hotel. Uthoff said Snyder told witness that if he would introduce this gas bill as a "rider" to the Central Traction bill, and work for its passage as well as vote for the Central Traction bill, he would give witness \$100,000.

"He said he would give me \$50,000 next day," Uthoff explained; "\$15,000 when the gas bill was introduced and \$25,000 when the gas bill was passed. "Then Snyder took up two handfuls of bills," witness stated, "and said: 'Uthoff, here's \$200,000. Dickmann is on the floor of the council with \$100,000 more. I would have had \$50,000 for you but Charlie Carroll got \$15,000 from me today.'"

Uthoff said he refused to take any of the money then offered him by the promoter. "I said if I could see my way clear to vote for it, I would do so," Uthoff said. Witness was not allowed to say whether he voted for the bill after it had been vetoed by the mayor. Here witness told of a meeting arranged by Mephant and Dickmann, between Snyder and himself. At this meeting Snyder asked about an understanding with President Meier of the city council.

For Interchangeable Mileage.

New York, Oct. 2.—A meeting of general passenger agents and auditors of trunk line railroads has been held in this city to consider the establishment of an interchangeable mileage bureau, the object being to provide an interchangeable mileage ticket that will be good on roads throughout the trunk line territory. Although no announcement was made, it is said the subcommittee in charge has agreed on practically all details.

Reading Shipping Coal.

Reading, Pa., Oct. 2.—The Reading Railway Co. claims to have brought out 2,800 tons of coal in two days. Reading officials claim that shipments since last Sunday amount to 10,000 tons.

Democrats of Maysville, don't forget next Tuesday is registration day.

You can register next Tuesday any time between 7 a. m. and 9 p. m. Let no Democrat fail to attend to this important duty.

OVER-CONFIDENCE has brought about many defeats. The Democrats of the Ninth district should plan to get out their full vote. Don't fail to register next Tuesday.

The President sent a message to Congress last December suggesting a remedy for the trusts, which was to give publicity to their doings and bring everything to the public view. His suggestion was embodied in an amendment to the census bill offered by Senator Dubois, and every Republican voted against it, thus declaring that they were not in accord with the President on that subject. The President sent in no message recommending a constitutional amendment for the control of the trusts. If he had done so it is a question whether it would not have met the fate of his suggestion of more light. He attempted nothing while Congress was in session. He now proposes a constitutional amendment, which seems to be the only remedy presented to his mind.

The action of the Republicans at the last session demonstrated one fact and that is if the people want the greedy and grasping trusts throttled they will have to send Democrats to Congress.

A DEMOCRATIC CONGRESS NEEDED.

Representative John Wesley Gaines, from Tennessee, in a recent interview in the Washington Times, states in excellent language the real ideas underlying the attitude of both the Republican and Democratic parties in the pending campaign. He says:

"In the President's recent speech at Fitchburg, Mass., he used the pronoun I twenty five times. I counted them. That is very significant as showing that he is speaking for himself only. What the party may do is quite another matter. I regard the President as a sincere man, but he is slating his personal position, while the Democrats are urging their party position.

"The Republican party managers have avoided any antitrust legislation throughout both McKinley and Roosevelt's term of office. The Democrats have urged strengthening the present law and in the meantime giving it a vigorous enforcement, as far as it goes."

This is tersely put and sums up the real situation as it exists. It should be remembered that Congressman Gaines was addressing himself to the utterances of the President concerning the regulation and control of trusts. The President may be credited with sincerity in stating his own views as to the method of solving the trust evil. But the attitude of his party leaders, in both the past and the present, develops the fact that though the President may agree with the Democratic position, yet he is powerless to carry out, in a Republican Senate and House, his ideas. In the language of Congressman Livingston: "The President needs a Democratic House to assist him in handling the trusts."

It is evident that Mr. Roosevelt sees the necessity of tariff reform. And it is also manifest that tariff reform must come by and through the policies so long advocated by the Democratic party.

When a horse picks up a nail in his foot what does the driver do? Does he whip the limping, lagging animal and force him along? No unless he wants to ruin the horse. At the first sign of lameness he jumps down, examines the foot and carefully removes the cause of the lameness. What is called "weak stomach" is like the lameness of the horse, only to be cured by removing the cause of the trouble. If you stimulate the stomach with "whisky medicines" you keep it going, but every day the condition is growing worse. A few doses sometimes of Dr. Pierce's Golden Medical Discovery will put the disordered stomach and its allied organs of digestion and nutrition in perfect condition. Ninety-eight times in every hundred "Golden Medical Discovery" will cure the worst ailments originating in diseases of the stomach. It always helps. It almost always cures. To cure constipation use Dr. Pierce's Pleasant Pellets. They're sure.

D. HUNT & SON

KEHOE.

A Friend of the People, He Will Guard Their Interests.

His Splendid Work in Congress Has Proved His Worth—City, District and State Demand His Return.

The electors of the Ninth Kentucky district do not close their eyes to the fact that at this election a question of vital importance to the Republic is to be decided. It is whether the trusts shall be supreme, or subject to the law. The candidate of the trusts, in this district, is Mr. W. H. Castner, a man of very inferior parts, and servile in his partisanship. Could he, by Republican methods, squeeze into Congress he would be given a seat away back on the Republican side, and kept there to vote as he was told. Is this the kind of man the farmers, the working-men, the business men of the Ninth district want to misrepresent their interests? Voting with the trusts, he would vote for an increased cost of living. The farmer would, by Mr. Castner's machine voting, be overtaxed for every necessary of life—his clothing, his food, his agricultural implements: the artisan obliged to pay two prices for everything he needs, in order to build up fortunes for a pampered and grasping few. Shall our country belong to the trusts or to the people? Mr. Castner's leaders say it must belong to the trusts. They have, in fact, already sold it to the trust magnates, but the people have fortunately to pass on the bargain.

In Pennsylvania the coal trust has brought thousands of families into degradation and starvation. Mr. John Mitchell, President of the United Mine Workers of America, tells why the coal miners of Pennsylvania have struck:

"Mr. Baer claims that the average pay per working hour in his mines is \$1.89. Admitting, for the sake of argument, the correctness of his figures, this would make upon the average number of working days in 1901 a grand annual total of \$365 per employee, or an average of \$7.00 a week; thus, as a result of the strenuously opposed and bitterly regretted advance wrung from the operators by the strike of 1900, the average adult employee of the Reading Coal and Iron Company is permitted to spend upon himself, his wife and his children the meager sum of \$1.01 a day."

Like the old pagan God, Moloch, which demanded children in sacrifice, the Pennsylvania trust magnates cry out for the lives of little ones to satisfy their thirst for human blood. They want these young lives in tens of thousands. Hear Mr. Mitchell on the subject:

"Involved in this fight are questions weightier than any question of dollars and cents. The present miner has had his day; he has been oppressed and ground down, but there is another generation coming up, a generation of little children prematurely doomed to the whirl of the mill and the noise and blackness of the breaker. It is for these little children we are fighting. We have not under-estimated the strength of our opponents; we have not overestimated our own power of resistance, accustomed always to live upon little, a little less is no unendurable hardship. It was with a quaking of hearts that we asked for our last pay envelopes; but in the grimy and bruised hand of the miner was the little white hand of a child, a child like the children of the rich, and in the heart of the miner was the soul-rooted determination to starve to the last crust of bread and fight out the long, dreary battle to win a life for the child and secure for it a place in the world in keeping with advancing civilization."

Shall Kentuckians vote for such a creature of the trusts as Castner to sacrifice the children of America? What is Pennsylvania's misfortune to-day, will be, if the trusts can fill Congress with Castners and such narrow servile tools of party. Kentucky's experience to-morrow. Kentucky manhood revolts from the wholesale massacre of children, the degradation of womankind, the brutalization of mankind.

The people of the Ninth district will, by an overwhelming vote, given to that tried, able, fearless and accomplished Representative James N. Kehoe, declare that this free America belongs to all her people and not to a favored few. Mr. Kehoe is a Kentuckian of the highest type and character. He knows his people's wishes and can set forth their wants clearly and fearlessly. They know his worth and by their votes will declare that they want his services for another term. It is repellant to the pride and to the intelligence of Kentuckians to be asked to send a man to Congress to be tied to the tail end of the Republican machine, when, with Mr. Kehoe as a Representative, they may take a man in the foremost rank of the Democratic party which is soon to rule the nation.

Maysville in particular, the home of hundreds of working people, insists on the return of a friend of labor to Congress. Every vote cast for Castner is a knife in the heart of some young life, a deadly blow at labor's best interests. Our city, also, needs in Congress a Representative like James N. Kehoe, of intelligence and influence, to give it the development, growth and expansion which befit its fine natural position. Maysville should be Kentucky's second city in size and importance. Give Mr. Kehoe full chance to help make it so.

BIG DAMAGES ASKED.

Administratrix of George Dorsey Sues the L. and N. Railroad Company for \$25,000 For Causing His Death.

Annabel Dorsey, administratrix, filed suit in the Mason Circuit Court Thursday against the L. and N. Railroad Company for \$25,000 damages for causing the death of George Dorsey last summer.

Dorsey was the colored man who was struck by a Deering camp meeting train one Sunday morning near Clark's Station, and so badly injured that he died some days later. He was employed on the farm of Mr. C. D. Russell at the time, and the petition sets up the claim that by the right of way granted the railroad over this farm, the owner of the land and the employees have the right to cross the tracks any time, and that Dorsey therefore was no trespasser on the road when the unfortunate accident occurred. Cole & Son are attorneys for the plaintiff.

"Rusty" Robinson, the BULLETIN's "devil," this morning while trying to imitate the Gaspard brothers' thrilling act, seen at the minstrels last night, had one of the table forks with which he was juggling take an "in-shoot" and strike him in the corner of an eye, placing that orb in the mourning column and incapacitating him from duty.

THE COAL SITUATION

Maysville's Supply Now Limited to an Occasional Car.

What a Prominent Business Man Has to Say of the Strike—Republicans Alarmed at Public Sentiment.

Speaking of the coal situation in Maysville and the miners' strike, a prominent business man of the city said to the BULLETIN this morning:

"Stocks of coal in this vicinity are about exhausted. The supply is limited to an occasional car. The late rains have been local, with no beneficial effect upon the river.

"A coal rise in the river and a settlement of the strike alone will bring a return to normal conditions. This strike has not been characterized by violence, but with that determined and sagacious tact that insures victory. The conference called by the President of the coal miners and operators is a political necessity. Mr. Roosevelt is aware that the people know that the high tariff made the trusts possible, and that they have been fostered and protected by the Republican party. The centralization of the money power has so rapidly changed the social and political complexion of the country, that no commercial enterprise can succeed unless under their control, and the masses have at last become enslaved to the domination of the trusts. The miners have held out so long and at such an immense sacrifice, like a beleaguered garrison in an invested city, they will not likely now accept a truce, when their ally winter is near, and at this crucial time and critical period to the G. O. P. the bland words to be spoken by Mr. Roosevelt are like promises to the voter before the election, always forgotten afterwards by the victor.

"This strike is a rebuke to the trusts. The miners are fighting for a principle; the trusts are fighting for power; the people are praying for relief. The suffering is terrible to contemplate, but like the terrors of battle many innocent fall to save the nation.

"The money power heretofore has always been successful. The strikers are now in a most auspicious position to succeed."

G. A. R. Travel to Washington. Passenger traffic over the C. and O. will be lively from this morning till Sunday evening. The company has engagements for twenty-five special trains carrying veterans to the G. A. R. national encampment to pass through the city between now and Sunday night. These include two trains from the Santa Fe from Kansas and the Southwest; one from the Burlington; two from the Chicago, Rock Island and Pacific; five trains from St. Louis; three trains from Chicago; one train from Michigan; one from Indianapolis; three or four from Cincinnati, and several others from the West, the majority of which will be brought into Cincinnati by the Big Four road. There will be no stop-overs on the trip Eastward.

A new oil field has been opened in Bath County by the finding at a depth of 480 feet a flow of oil, said to be green, in a well drilled on the Embury land, near Olympia Springs. A twelve-foot layer of sand similar to that in the Ragland field was struck, then a thin layer of soapstone just above the oil. Another well was drilled on an adjoining farm which showed a small percentage of green oil.

Seldom have theatre-goers an opportunity to witness such a high-class attraction as that afforded by the Quinlan & Wall aggregation at the opera house last night. Lovers of good minstrelsy were well repaid for their attendance, the features being clever and entertaining from beginning to end. Dan Quinlan's new first part, "A Reception to the Diplomatic Legion," had been billed as one of the leading attractions, and it is certainly far ahead of anything of the kind heretofore produced on the local stage. Jimmy Wall is a veritable Gatling gun of witty sayings and mimicry, he and the other black-face artists sharing in the generous applause. The musical numbers were fine, some of the voices being exceptionally sweet. The Gaspard brothers, "French masters of dexterity," are wonders, and are undoubtedly the best in their line ever seen here.

WALTON FOR REPRESENTATIVE.

Popular Democrat of Germantown Candidate for the Legislature.

[Dover News.]

The time has come for our people to look about for a Democratic candidate for Representative from Mason County in the next Legislature. Several prominent men have been mentioned in this connection, but none more prominently than Joseph F. Walton of Germantown precinct.

Whether or not Mr. Walton desires to, or will, make the race, we do not know. But we do know that should he consent to become a candidate he will make a true, honorable and conscientious Representative of the people.

Mr. Walton is one of the most progressive, honorable and upright citizens. He comes from a section of the county that has not been honored with an office of this character for many years. He comes from the west end of the county, the most prosperous farming section, and that portion that, at all times and under all circumstances, rolls up a solid Democratic majority that assures victory in the county and the district. The west end is entitled to name the Representative from Mason County this time, and every Democrat wants Joe Walton to carry the banner to success.

The News moves to make his nomination unanimous by acclamation, and hereby calls upon him to say whether or not he will accept the honor and make the race.

BARKLEY'S

THERE'S a kind of happy feelin' creeps down in a feller when He's got his pumpkins gathered and the hay-mow's full again: There's hope in all the breezes that come blow-in' from the hill, And you get to thinkin' God is up there somewhere still: What a purty sight the wheat is as it's piled up in the bin! Oh, it's good to be a farmer when the crops are in. It's lively in the city, and it's very quiet here: There's the hurry and the racket keeps a-goin' all the year. There most every day's excitin', and they keep it up at night: Every way a person gazes there is some uncommon sight, And I s'pose it's never lonesome livin' round the haunts of sin, But the city people never have their crops all in. There's many a day of toillu', and there's many an ache and pain, And there's lots and lots of frettin' at the dryness or the rain: There's the weeds and worms and insects that the farmer has to fight, But the good Lord doesn't often fail to pull 'im through all right, And the sweetest satisfaction that a mortal man can win Sort of hovers round the farmer when the crops are in.

ADDITIONAL HOMES NEEDED FOR DELEGATES.

The Committee on Entertainment have not succeeded in securing homes for all the delegates who will be here. The BULLETIN was misinformed yesterday as to the number expected. The committee expect at least 100, and the Christian people of the city should see that all are hospitably entertained during their brief stay. Let those who are willing to entertain delegates telephone or send word at once to Mr. J. James Wood. The reputation of Maysville for Christian hospitality must be sustained.
